

BRIDGETON/WEST LAKE LANDFILL MEETING
APRIL 23, 2014
6:30 P.M.

Paul Rosasco, President/PE of Engineering Management Support Inc., will cover the following main topics in a slide presentation at a special HOA meeting at the Autumn Lakes Clubhouse, Wednesday, April 23, 6:30 p.m.

- 1.) Subsurface Smoldering Event effects (fire) on radionuclide's and on the claims of radionuclide's "migrating from Area 1."
- 2.) Benefits and impacts of excavation vs. capping in place.
- 3.) Groundwater in the landfill.

Paul feels the best use of everyone's time is to have an "open forum" with questions from the residents.

Paul was selected as the primary responsible parties' Project Coordinator of the pre-construction remediation work and will work in conjunction with the EPA Project Coordinator for the upcoming landfill remediation work.

Please tell a neighbor that may not have received this email.

Jay Black
Trustee, Autumn Lakes Association
